# KITTING PACKAGING & ASSEMBLY

## CUSTOM KITTING, PACKAGING, AND ASSEMBLY SOLUTIONS

WorldSource Fasteners® has been an industry leader in custom kitting and packaging solutions since 1974. We will work with you to design a custom solution to fit your needs and take the hassle and expense out of custom fastener and hardware kits. Our flexible kitting and labeling solutions can professionally print your Logo, Part Number, Bill of Materials, Bar Code, QR Code, or any other information directly onto your package, giving your kit a clean and professional look. Whether it is a small bag with a single item, or a complete solution with sub kits aggregated into a larger kit, our experienced professionals can handle the job. Contact us today and let our experienced professionals help by listening to your needs and offering suggestions to help you increase your productivity.

## CUSTOM FASTENER PACKS

- Custom Printed White Background Poly Bags up to 4mil Thickness w/Max Bag Size of 10.5" x 17"
- Logos, Bar Codes, QR Codes, Part Numbers, etc. Printed Directly on the Bag
- Heat Sealed Clear Poly Bags up to 6mil Thickness w/ Max Bag Size of 24" X 48"

# SELF CLINCHING FASTENERS, RIVET NUT & WELD NUT INSTALLATION

## SELF CLINCHING FASTENERS

- Provides strong, reusable, permanent, and cost effective threads, studs, pins, stand-offs, and other mounting points in thin sheet metal.
- PEM®, Captive Fastener®, Spiralock®, and other high quality brands available.

## RIVET NUT

- Provides high strength, secure, reusable threads in thin sheet metal using compressive strength, results in no damage to surface coatings or the base material. Compressive bubble design is ideal for blind installations and produces in exceptional push out and pull out torque values.
- RIVNUT®, Sherex®, Nutsert®, Marson®, and other high quality brands available

## WELD NUT

- Provides excellent rigidity, strength and stiffness, while allowing for a flush mounted surface in both thin and heavy gauge sheet metal. Useful where threads are required on a joint or in a corner, or where use as a bearing surface or structural support is necessary.
- Buckeye®, Gripco®, PEM®, and other high quality brands available.
